

TecDoc website offer:

Design

- Setting up graphic design and implement mark –up
- Dynamic elements (jQuery plug-ins, AJAX functionality)
- Responsive design

Features

- Presentation website
 - ✓ add / edit / delete pages (images, videos and animations can be added to the page)
 - ✓ pages sort system (intuitive arrows)
 - ✓ active/inactive status (in case you do not want to publish the page once you have edited it)
 - ✓ configurable meta elements from the administration interface
- Product catalogue
 - ✓ Categories
 - add / edit / delete categories and subcategories of products (categories have image and description)
 - active / inactive status for category and subcategory
 - a product can be associated with one or more categories and/or subcategories
 - categories and subcategories sorting system
 - Product association system to one or more categories or subcategories
 - ✓ Manufacturers
 - add / edit / delete manufacturers (manufacturers have image and description)
 - active / inactive status for manufacturers
 - a product can be associated with one manufacturer
 - ✓ Products
 - active / inactive status for products
 - add/edit/delete products
 - images gallery (each product can have as many images as needed)
 - active / inactive status for products
 - product attributes are user defined for each section and each attribute can have values from previously defined list or keyboard input
 - admin user can decide if an attribute is filter element on front
- TecAlliance API implementation mode for auto parts catalog
 - ✓ Categories
 - Selection of product categories and subcategories
 - Active/inactive category and subcategory status
 - Product association system to one or more categories or subcategories
 - Add/edit/delete/insert image for categories and subcategories
 - ✓ Manufacturers
 - add / edit / delete manufacturers (manufacturers have image and description)
 - active / inactive status for manufacturers
 - a product can be associated with one manufacturer

- upload multiple images for a manufacturer
 - ✓ Cars
 - Selection of brand, model and model types to associate the product with the desired car/cars
 - Edit/delete/insert image for car brands, model groups, models
 - ✓ Products
 - Display product information received from TecDoc API
 - Edit some product elements (TecAlliance does not allow saving product data)
 - Display product equivalents from the TecDoc API
 - Display OE codes from the TecDoc API
 - Search by product code according to the API
 - Stock notifications - client can set stock alerts for products that are not in stock
 - Price variance percentage setup for limiting order if selected price supplier has low stock
 - ✓ Import spare parts
 - Import other AM or OE products using cross reference (for each product we need an existing product code and manufacturer reference)
 - Import OE products using OE code only (this import has a lower accuracy because sometimes the system copies product information from subcomponent or related component because of the way TecDoc API returns results when searching by OE code)
- Price management
 - ✓ Price list import – from Excel, according to a given model, present in the administration interface
 - ✓ Margins
 - ✓ Currencies
 - ✓ Automation of price list import (file or API) for maximum 3 suppliers
- Transport
 - ✓ Set transport type
 - ✓ Set transport cost
 - ✓ Displaying the delivery address according to transport type settings
- Customer accounts back-end
 - ✓ add / edit / delete customer account
 - ✓ orders history
 - ✓ proforma
 - ✓ my garage (user can save cars to speed up search in the future)
 - ✓ wishlists
 - ✓ Add/edit/delete more companies for proforma
 - ✓ Add/edit/delete more delivery addresses
- Customer accounts front-end
 - ✓ add / edit / delete customer account
 - ✓ orders history
 - ✓ proforma
 - ✓ my garage (admins can see the cars saved by the clients)
 - ✓ wishlists(admins can see the products saved by the clients)
 - ✓ Add/edit/delete more companies for proforma
 - ✓ Add/edit/delete more delivery addresses
 - ✓ The admins can make notes for clients through the admin interface

- ✓ The admins can add pictures for clients through the admin interface
- Shopping cart
 - ✓ add products to shopping cart
 - ✓ change quantity option
 - ✓ remove items from cart
 - ✓ subtotals and total product cost
- Order
 - ✓ send order
 - ✓ new order email alerts (client and admin)
 - ✓ order status (new order, awaiting delivery, order shipped, etc.)
 - ✓ e-mail alert on order status change
 - ✓ proforma (download PDF)
 - ✓ transport fee can be set using a margins system
 - ✓ order search system
 - ✓ order part search system (search by code and see the orders containing the part)
- Adding/editing an order or offer from admin
 - ✓ The order sent by the customer can be edited, but we recommend creating a new order starting from the initial order to which products are added or products that are removed that are not necessary to keep the customer's initial order (can be useful for resolving some misunderstandings)
 - ✓ You can create a new order or an offer from admin
- Newsletter
 - ✓ e-mail addresses collection system
 - ✓ export of e-mail addresses in Excel file
- Slider
 - ✓ add / edit / delete images
 - ✓ sorting system for slider (intuitive arrows)
 - ✓ active / inactive status
 - ✓ configurable meta elements
- Banners
 - ✓ add / edit / delete images
 - ✓ sorting system for banners (intuitive arrows)
 - ✓ active / inactive status
 - ✓ configurable meta elements
